The permit is issued in accordance with Article IV-Building Sewers and Connections, Sections 401, 402 and 403 cited in Chapter 5 of the City of Ellsworth Sewer Ordinance, adopted April 18, 2005.

The undersigned permittee hereby agrees to construct the private sewer service and connect it to the public sewer main. Work will be done by a contractor of the Owner’s choosing. All costs and expense incident to the installation, connection, and maintenance of the building sewer shall be borne by the Owner.

The undersigned permittee understands that all aspects involved in the construction and installation of a private sewer are subject to the standards cited in Chapter 5, City of Ellsworth Sewer Ordinance, as well as at the discretion of the Wastewater Superintendent. Further, it is understood that the private sewer from where it originates in the building to the public sewer main is the property of the owner and shall remain so.

All work shall be done under the inspection of the Wastewater Superintendent or his designee, to the extent necessary to protect the interests of the City of Ellsworth. No connection to the public sewer shall be backfilled without the approval of the Superintendent of his designee. It is the contractor’s responsibility to obtain approval of the Wastewater Department prior to filling. Requests for final inspection require 48 hour notice.
