City of Ellsworth
Request for Proposals (RFP)
Economic Development Business Attraction Plan, Market Analysis, &
Action Plan Matrix

Question Responses – Dated January 25, 2023

The City of Ellsworth Economic Development Department received the following Questions in regard to the RFP released on January 5, 2023. Answers to the questions can be found below. A reminder that proposals are due by 4pm on Wednesday, February 15, 2023.

1. Is there a budget or budget range for this project? If so, are you able to share it?

The City asks that proposers develop and submit a budget that meets the Scope of Work section of the RFP. The City does not want the budget to be a limiting factor in accomplishing the goals and deliverables outlined in the Scope of Work, so long as the proposed budget is within reason and in line with market rate.

2. Is there a particular reason that the original RFP was revised and reissued?

There were no proposals submitted using the original RFP, so the RFP was revised and reissued with the goal of attracting a broad range of proposers.

3. Are out-of-state firms encouraged to apply?

Yes, out-of-state firms are encouraged to apply.
