

In-Person Listening Sessions:

Opportunities to Inform Development of the 2024 Maine Highway Safety Plan

The Maine Bureau of Highway Safety is hosting listening sessions to gather public input to shape the development of the 2024 Annual Highway Safety Plan (HSP).

We welcome your ideas on several issues, including:

- What concerns do you have surrounding traffic safety in your community?
- What areas of traffic safety do you feel are working well in your community?
- What are the barriers to you safely traveling from point A to point B in your community? What ideas can be implemented by the Bureau of Highway Safety to overcome these barriers?
- What do you think are effective methods for Maine to enhance highway safety awareness initiatives?
- How can the Maine Bureau of Highway Safety design and implement innovative and culturally responsive highway safety traffic enforcement programs?
- How should MeBHS respond to the increase in roadway deaths?

We are also interested in hearing your input on any Highway Safety related issues that are important to you. We look forward to hearing your ideas and receiving your input. We value inclusion and access for all meeting participants. If you require accommodations, including translation services, please contact us at least 48 hours prior to the meeting at BHSGrant.MDPS@maine.gov

Please Consider Joining Us:

Your thoughts and recommendations are important, so we are offering listening sessions to provide the opportunity for interested parties in Maine to participate.

Thursday, May 25, 2023: 4:30 - 6:00pm

Ellsworth Public Library, 20 State St. Ellsworth, ME

All the input gathered from the listening sessions and responses will be collected. We will use that information to inform the vision, goals, and strategies to assist in shaping our Annual Highway Safety Plan (HSP).
