**CITY OF ELLSWORTH
REQUEST FOR BIDS
WORDS, SYMBOLS, STOP BARS, CROSSWALKS, PARKING LINES & ISLAND
PAVEMENT MARKINGS**

The City of Ellsworth, Maine, is requesting bids for a contract for pavement marking of City streets for a period of one (1) year. Two (2) individual one (1) year renewal options may be possible, contingent upon mutual agreement of the parties. This Request for Bids is issued on February 26, 2026. Bids will be accepted until 10:00 AM, Tuesday, March 10, 2026. All bids are to be opened publicly at that time. Bids received after the deadline will not be considered. SEALED Bids should be marked "SYMBOL/CROSSWALK Pavement Marking Bid". Bids may be hand-delivered or mailed to:

City of Ellsworth
City Clerk's Office – **STREET SYMBOLS AND MARKING BID**
One City Hall Plaza
Ellsworth, ME 04605

Questions concerning the specifications may be addressed to Brian Moon, Highway Foreman by email: bmoon@ellsworthmaine.gov.

The City of Ellsworth reserves the right to accept or reject any or all bids and to waive any informalities or irregularities.

INTRODUCTION

It is the intent of the City to procure pavement marking services in the urban area from an established and experienced contractor. The work consists of furnishing and placing all necessary material to properly perform Symbols, Stop Bars, Crosswalks, and other stenciled markings, which shall include, but not be limited to, paint, glass beads, vehicles, traffic control devices, and all incidental items. The services requested include painting the pavement markings in accordance with nationally accepted standards outlined in the Manual on Uniform Traffic Control Devices and per the Maine Department of Transportation requirements.

Work under this contract will commence on or about May 1, 2026, and shall be at least 75% completed by June 15, 2026. All costs incurred in the preparation and submission of a proposal will be borne by the Bidder. Proposals may be modified or withdrawn at any time before the closing date and time specified. Proposals may only be withdrawn in person by an authorized representative.

CONTRACTOR RESPONSIBILITIES

It is the responsibility of the bidder to examine the site(s) of work and/or investigate as needed to make the bidder fully aware of the conditions that would be encountered in performing this work.

The contractor shall supervise and direct the work. The contractor shall be solely responsible for all means, methods, techniques, sequencing, procedures, and all scheduling of the work under this contract.

PROJECT OVERSIGHT

The City's Highway Foreman will oversee the painting to ensure that the work performed by the contractor is performed in accordance with these specifications and in accordance with generally accepted practices. The Highway Foreman shall have the authority to stop work if in their opinion, the contractor is failing to perform in accordance with this contract, operating an unsafe job site, violating environmental regulations, or federal, state, or local laws.

BID SUBMITTALS

Interested contractors will need to submit the following in a SEALED & ADDRESSED envelope:

1. The completed proposal form delineating the unit and total prices.
2. Material Submittals for the paint and glass beads proposed to be used (prior to starting work)
3. Proof of Workers' Compensation and General Liability Insurance (prior to starting work)

Failure to provide any of the above noted items may result in automatic rejection of bid.

BID EVALUATIONS

The City reserves the right to award a contract based on factors in addition to price. The City will have the right to select the contractor best able to provide the services required and will then contract based on all factors involved in this bid.

AWARD OF CONTRACT

No award will be made at the time of the bid opening. The contract will be awarded by the City Council to the contractor best able to provide the services required.

ALL UNIT PRICES APPROVED SHALL BE FIRM UNTIL THE END OF THE CONTRACT PERIOD.

TECHNICAL SPECIFICATIONS

Paint, glass beads and workmanship shall meet Maine DOT specifications for this type of work.

GENERAL REQUIREMENTS:

The paint shall be formulated and processed specifically for service as a binder for beads, in such a manner as to produce maximum adhesion, refraction, and reflection. Any capillary action of the paint shall not be such as to cause complete coverage of the beads.

The paint shall be well mixed in the manufacturing process and shall be properly ground when incorporating the pigments in order to conform to the requirements as specified.

The paint shall not layer, thicken, curdle, gel, settle excessively, or otherwise show any objectionable properties while in storage and in use. It shall be readily remixed manually to smooth, uniform consistency throughout and during application.

The paint shall dry on a road surface to a strongly adherent film that will not turn dark in sunlight or show appreciable discoloration with age. It shall be easily and uniformly applicable with mechanical line-marking equipment and shall have excellent covering properties. The paint shall be suitable for binding glass beads so as to produce a highly weather-resistant and wear-resistant traffic line.

Paint shall only be applied when the atmospheric temperature is 45 degrees Fahrenheit or above and when the weather is not excessively windy, dusty, or foggy. Alternatively, as recommended by the manufacturer. Suitability of the weather will be determined by the Ellsworth Highway Foreman.

Longitudinal lines placed on tangent roadway segments shall be straight and true, longitudinal lines placed on curves shall be continuous, smoothly curved lines consistent with the roadway alignment. Symbols shall be square to the roadway.

Broken lines shall consist of alternate 10-foot painted line segments and 30-foot (maximum) gaps.

Width of all lines shall be four inches, +/- 1/4 inch.

The contractor shall use cones, stationary vehicles, or other approved methods to protect newly painted lines from traffic.

The Contractor shall be responsible for all traffic control and must provide all traffic control devices.

Schedules for painting City streets must be approved by the Highway Foreman before any work takes place. Painting will generally be allowed during periods of light traffic, evenings, and weekends.

All work shall be performed in a workmanlike manner. The City will not accept substandard work, such as (for reasons of example but not meant to be exclusive); wavy lines and lines with paint smears caused by motor vehicles driving over wet paint.

The Bidder shall be responsible to provide all labor, materials, and equipment necessary to perform the work or supply the material(s) requested in this bid and shall ensure a timely completion of the work involved or the material(s) supplied in conformance with generally accepted work standards. All work shall be in conformance with all applicable local, state, and federal laws, ordinances, rules, and regulations.

Upon notification by the City of unacceptable work, the contractor shall correct it within ten (10) work days. Payment for all uncorrected deficiencies shall be deducted from the amounts owed.

3. APPLICATION

This paint must be reflectorized for night visibility by adding reflective spheres before the paint dries or sets, by using drop-on or pressurized methods. The reflective spheres shall be evenly dispersed on wet paint film of 18 mils (110- 115 square feet per gallon) at a rate of 9 pounds per gallon.

The lines shall be applied with airless or air-assisted spray equipment.

Approximate Quantities to be Painted (see attached list for specific locations)

Parking Lines – 11,600 lf
Stop Bars – 159 each (various lengths)
Right Arrow – 185 each
Left Arrow – 207 each
Straight Arrow – 163 each
Straight/Right Arrow – 48 each
Straight/Left Arrow – 55 each
“ONLY” – 75 each
“STOP” – 2 each
No Parking – 58 each

Handicap – 25 each
Blue (solid area) – 1430 sft
Directional Arrows for Parking Lots – 6 each
Crosswalks- 92 each (2 ft by 6 ft blocks with 1 ft spacing in between)
20 Min Parking – 8 each
EV Charging – 8 each
Red Island (State St) – 330 sft
Green Islands – 6000 sft
End of Islands (yellow) – 8 each
Misc Stencil – 5 each
R X R- 8 each

Under no circumstances should bidders assume that these estimates represent the exact amount of work to be done.

Basis of Payment

It shall be the responsibility of the successful bidder to report in writing the quantities painted each week to the Highway Foreman.

The accepted quantities of pavement lines and markings will be paid for at the contract unit price per linear foot or per unit as defined in the specifications. All lines will be measured by the linear foot. Any changes in the marking schedule must be approved by the Highway Foreman or their designee.

Warranty

Contractor agrees to warranty all workmanship and materials for a period of 6 months from the completion of the work. The paint will need to be applied in such a way that meets 16mills at a minimum. It does not include damage from Plowing operations.

General Conditions

Operations shall be performed so as to not create a nuisance or interrupt operations of adjacent businesses or schools and to minimize the disruption of traffic to the extent possible. Work zones shall be well marked/signed and picked up as work is completed.

The City of Ellsworth shall perform street sweeping of winter sand prior to this work being performed.

If necessary, the bidder shall adjust their schedule to accommodate work being performed by the City or State of Maine.

Contractor shall not assign, transfer, convey, sublet, or otherwise dispose of its contract or its right, title, or interest therein to any other person, firm, or corporation without prior consent of

the City. In no case shall any such consent relieve the contractor from its obligations or change any terms of the contract.

If the Contractor fails to fulfill its obligations under this contract on time or otherwise violates any provision of this contract, the City may terminate the contract by written notice to the Contractor.

Equal Employment Opportunity

The City of Ellsworth is an Equal Opportunity Employer and shall not discriminate against an applicant for employment, an employee, or a citizen because of race, color, sex, marital status, physical and/or mental handicap, religion, age, ancestry, or natural origin, unless based on a bona fide occupational qualification. Vendors and contractors or their agents doing business with the City shall not violate the above clause or the Civil Rights Act of 1964. Violations by vendors shall be reviewed on a case-by-case basis and may mean an automatic breach of contract or service to the City of Ellsworth.

Save Harmless

The Bidder agrees to indemnify, defend, and save harmless the City, its officers, agents, and employees from any and all claims and losses accruing or resulting to any and all contractors, subcontractors, material men, laborer, and any other person, firm, or corporation furnishing or supplying work, services, materials, or supplies in connection with the performance of this contract, and from any and all claims and losses accruing or resulting to any person, firm, or corporation who may be injured or damaged by the Bidder in the performance of this contract and against any liability, including costs and expenses, for violation of propriety right, copyrights, or rights of privacy, arising out of publication, translation, reproduction, delivery, performance, use of disposition of any data furnished under this contract or based on any libelous or other unlawful matter contained in such data.

Insurance

Contractors will be required to show proof of insurance in not less than the following amounts:

General Liability:	\$400,000 per incident
Motor Vehicle Liability:	\$1,000,000 Aggregate
Major Medical:	\$50,000
Workers Compensation:	As Required By Maine Statute

Bid Title: 2026 – GEN-001 Line Striping 2026

Words, Symbols, Stop Bars, Crosswalks, Parking Lines, and Island Pavement Markings

Bid Date: 04/07/2026 @ 10 AM

STATEMENT OF BIDDER QUALIFICATION FORM

To Whom it May Concern:

With regards to the above-mentioned bid, please be advised that K5 Corporation is fully capable of performing the work in accordance with the specifications set forth in the bid documents without any delay or interference.

K5 Corporation has been in the Pavement Marking business for 45 years. We have performed contracts for many state DOT's Cities and Towns and Airports. We are committed to quality work and customer service. K5 Corporation has the capacity and ability to complete the work per the bid time frame. All our foremen have minimum 5 years of experience.

All our crew members are OSHA certified and ATSSA trained. K5 Safety officer monitors all crews on a random basis with unannounced site visits.

We have the experience, equipment, and expertise necessary to complete the above-referenced project within the scheduled period. Our intentions are to supply the Cities and Towns with the necessary crew and equipment to complete each phase/ deadline within the scheduled time frame outlined in the bid document.

K5 Corporation is financially capable of completing this project. We are pre-qualified by MassDOT.

K5 Corporation is a certified Women Business Enterprise (WBE) in Massachusetts and New York City.

Furthermore,

- K5 Corporation's Permanent Business Address: 9 Rockview Way, Rockland, MA 02370
- K5 Corporation has a labor force that can work in harmony with all other elements of labor employed.
- Kathy DeLong - Project Superintendent- 35 Years' experience in pavement marking.

- Ronald Beaudoin- Project Superintendent - 33 years' experience in pavement marking.
- Gregg Emsley- General Superintendent- 25 years' experience in pavement marking – See the attached resume.

For Evaluation Criteria:

1. See the attached reference and completed contracts.
2. K5 Corporation agrees to warranty all workmanship and materials for a period of 6 months from the completion of work.
3. K5 Corporation has the capacity and ability to complete the work per the bid time frame

For Vendor Submission:

1. K5 Corporation confirms that we met all of the proposal requirements including the sections:
 - A. General Conditions
 - B. Special Provisions and specifications
 - C.
2. See the attached bid summary, Reference, completed contracts, Project Coordinator's resume, Material submittal and COI.

K5 Corporation also certifies that under the penalties of perjury that this bid has been made and submitted in good faith and without collusion or fraud with any other person or entity.

Thank you for your time and consideration. Looking forward to working with you on this project. Please feel free to contact us if you require any additional information.

Best Regards,

Kathy DeLong
President

Work Experience

Project Manager

K5 Corporation, Rockland, MA August 2020 – Present

- Oversee Multiple Pavement Marking Crews in all aspects of Pavement Marking Installation.
- Provide both State and Local Municipalities with all required paperwork for setting up new jobs
- In Field supervision of crews and On-site quality control
- Built safety compliance and improved safety results through regular efficiency testing and safety walkabouts, provided positive and constructive feedback and coaching
- Led the on-boarding and training activities of new employees.

Supervisor

Bridgewater, MA - April 2019 – July 2020

- Developed pavement marking operation for both new construction and existing surface projects
- Managed project operations for pavement markings work using various mediums for both state and local municipality contracts
- Supervised staff on multiple job sites
- Identified and procured equipment for the company as needed to ensure project completion
- Completed all required paperwork/reports in a timely and accurate manner
- Performed mechanical repairs on equipment as needed

FOREMAN

Hi-Way Safety Systems, Rockland, MA September 2014 - March 2019

- Managed project operations for pavement markings work using various mediums for both state and local municipality contracts including the state. of MA, RI and NY.
- Supervised staff on multiple job sites
- Identified and procured equipment for the company as needed to ensure project completion
- Completed all required paperwork/ reports in a timely and accurate manner
- Performed mechanical repairs on equipment as needed

FOREMAN

Traffic Markings, Inc., Franklin, MA April 2000-August 2014

- Managed project operations for pavement markings work using various mediums *for* both state and local municipality contracts
- Supervised staff on multiple job sites
- Identified and procured equipment for the company as needed to ensure project completion
- Completed all required paperwork/ reports in timely and accurate manner.

HOTLINE FAST DRY WATERBORNE PAVEMENT MARKING PAINTS TM2196 WHITE TM2197 YELLOW

PRODUCT DESCRIPTION:

Hotline Waterbornes, TM2196 White and TM2197 Lead free Yellow are fast drying waterborne traffic paints made with some of the most advanced resin technology on the market today.

These products meet or exceed all the requirements of the following Specifications:

- **Federal Specification TT-P-1952D, Paint, Traffic and Airfield Marking, Waterborne**
- **New York DOT Section 640 ReflectORIZED Pavement Marking Paints**
- **Rhode Island Department of Transportation White and Yellow Fast-Drying Waterborne Pavement Marking Paint, Specification RIC 9618, T.09.9901 to T.09.9916 (REV September 25,1995),**

The outstanding characteristics of these products include; low VOC's (~100 gr/L), superior early wash-out resistance and more consistent drying times even in high humidity conditions. Both the white and yellow products are formulated with non-lead containing pigments.

USES:

These products are used primarily for long line striping applications on streets and highways. Other possible uses include: auxiliary markings such as stop bars and crosswalks, marking airfields and for striping parking lots.

APPLICATION:

Hotline Fast Dry Waterborne Pavement Marking Paints are designed primarily for application through long-line striping trucks which have been properly equipped to apply waterborne traffic paints. Of particular importance is the need for metal parts to be stainless steel, hoses to have proper chemical resistance to the unique high pH properties of the latex resins being used, and a heating system which provides adequate heat with appropriate controls. Although airless is the recommended method of application, both airless and air atomizing striping equipment can be used.

APPLICATION CONDITIONS:

Surfaces should be clean, dry and free from loose or peeling paint. **Hotline Fast Dry Waterborne Pavement Marking Paints** perform best when applied at air and surfaces temperatures of 50°F and rising. Do not apply below 45°F. Moisture in the road surface can cause premature failure. The presence of concrete sealers or other residue on new concrete surfaces may interfere with adhesion and must be removed.

APPLICATION CONDITIONS (cont.):

Most previously painted lines may be repainted without additional surface preparation, provided

the old paint is still tightly adhered to the surface. Multiple layers of paint may eventually build and begin to peel or chip. Removal of the existing paint line will be required in these areas.

New asphalt surfaces, particularly parking lots, should be allowed to age several months before striping with Waterborne Pavement Marking Paint. Waterborne paint does not normally bleed on new asphalt, but shrinkage of the paint film during the curing (drying) process may cause new asphalt to lift or crack at the edges of the paint line. Exceeding the recommended film thickness will increase the possibility of asphalt lifting. Road surfaces are less susceptible to the occurrence of this lifting problem but should still be monitored.

APPLICATION RATES:

Hotline® Fast Dry Waterborne Pavement Marking Paints, TM2196 and TM2197 should be applied at 14 - 16 mils wet film thickness. A flat, uniform paint line with an even distribution of paint and glass beads (6 #/gal) should dry in 120 seconds or less. Application rates of more than 16 mils wet film thickness may extend the service life of the product but may also result in extended drying times.

THINNING & CLEANUP:

Thinning of Hotline® Fast Dry Waterborne Pavement Marking Paints is not normally required. If thinning is necessary thin only with clean water, not to exceed four ounces per gallon. Any water added will slow the dry time.

Wet paint may be cleaned up with water. Once the paint is dry, solvent will be required to remove the paint film. Most typical paint solvents (e.g. xylene, acetone) may be used for this purpose. Care must be taken to avoid solvent contamination in waterborne paints.

PRECAUTIONS:

FOR INDUSTRIAL USE ONLY. SEE MATERIAL SAFETY DATA SHEETS. READ AND FOLLOW WARNING LABELS ON PACKAGES.

Painted surfaces can become slippery when wet. Traffic paints are not intended for use as floor paints. Do not use on pedestrian walkways or large surfaces such as ramps, floors and stairs which may become slippery when wet.

Newman's GroundEffects will warranty workmanship but it is impossible to warranty a product that does not have a warranty, and we have no control of amount of vehicles, weather or road conditions etc...

Qualifications

Newman's GroundEffects have been in business serving the Ellsworth and surrounding areas for 10 years, we work hand in hand with most local contractors and local businesses in the Ellsworth area doing their line striping. Newman's GroundEffects held the city of Ellsworth Line Striping bid for 3 years.

MATERIALS

SherwinWilliams Promar Acrylic solvent based traffic marking paint TM5712 white TM5713yellow

**CITY OF ELLSWORTH
REQUEST FOR BIDS
WORDS, SYMBOLS, STOP BARS, CROSSWALKS, PARKING LINES & ISLAND
PAVEMENT MARKINGS**

The City of Ellsworth, Maine, is requesting bids for a contract for pavement marking of City streets for a period of one (1) year. Two (2) individual one (1) year renewal options may be possible, contingent upon mutual agreement of the parties. This Request for Bids is issued on February 26, 2026. Bids will be accepted until 10:00 AM, Tuesday, March 10, 2026. All bids are to be opened publicly at that time. Bids received after the deadline will not be considered. SEALED Bids should be marked "SYMBOL/CROSSWALK Pavement Marking Bid". Bids may be hand-delivered or mailed to:

City of Ellsworth
City Clerk's Office – **STREET SYMBOLS AND MARKING BID**
One City Hall Plaza
Ellsworth, ME 04605

Questions concerning the specifications may be addressed to Brian Moon, Highway Foreman by email: bmoon@ellsworthmaine.gov.

The City of Ellsworth reserves the right to accept or reject any or all bids and to waive any informalities or irregularities.

INTRODUCTION

It is the intent of the City to procure pavement marking services in the urban area from an established and experienced contractor. The work consists of furnishing and placing all necessary material to properly perform Symbols, Stop Bars, Crosswalks, and other stenciled markings, which shall include, but not be limited to, paint, glass beads, vehicles, traffic control devices, and all incidental items. The services requested include painting the pavement markings

in accordance with nationally accepted standards outlined in the Manual on Uniform Traffic Control Devices and per the Maine Department of Transportation requirements.

Work under this contract will commence on or about May 1, 2026, and shall be at least 75% completed by June 15, 2026. All costs incurred in the preparation and submission of a proposal will be borne by the Bidder. Proposals may be modified or withdrawn at any time before the closing date and time specified. Proposals may only be withdrawn in person by an authorized representative.

CONTRACTOR RESPONSIBILITIES

It is the responsibility of the bidder to examine the site(s) of work and/or investigate as needed to make the bidder fully aware of the conditions that would be encountered in performing this work.

The contractor shall supervise and direct the work. The contractor shall be solely responsible for all means, methods, techniques, sequencing, procedures, and all scheduling of the work under this contract.

PROJECT OVERSIGHT

The City's Highway Foreman will oversee the painting to ensure that the work performed by the contractor is performed in accordance with these specifications and in accordance with generally accepted practices. The Highway Foreman shall have the authority to stop work if in their opinion, the contractor is failing to perform in accordance with this contract, operating an unsafe job site, violating environmental regulations, or federal, state, or local laws.

BID SUBMITTALS

Interested contractors will need to submit the following in a SEALED & ADDRESSED envelope:

1. The completed proposal form delineating the unit and total prices.
2. Material Submittals for the paint and glass beads proposed to be used (prior to starting work)
3. Proof of Workers' Compensation and General Liability Insurance (prior to starting work)

Failure to provide any of the above noted items may result in automatic rejection of bid.

BID EVALUATIONS

The City reserves the right to award a contract based on factors in addition to price. The City will have the right to select the contractor best able to provide the services required and will then contract based on all factors involved in this bid.

AWARD OF CONTRACT

No award will be made at the time of the bid opening. The contract will be awarded by the City Council to the contractor best able to provide the services required.

ALL UNIT PRICES APPROVED SHALL BE FIRM UNTIL THE END OF THE CONTRACT PERIOD.

TECHNICAL SPECIFICATIONS

Paint, glass beads and workmanship shall meet Maine DOT specifications for this type of work.

GENERAL REQUIREMENTS:

The paint shall be formulated and processed specifically for service as a binder for beads, in such a manner as to produce maximum adhesion, refraction, and reflection. Any capillary action of the paint shall not be such as to cause complete coverage of the beads.

The paint shall be well mixed in the manufacturing process and shall be properly ground when incorporating the pigments in order to conform to the requirements as specified.

The paint shall not layer, thicken, curdle, gel, settle excessively, or otherwise show any objectionable properties while in storage and in use. It shall be readily remixed manually to smooth, uniform consistency throughout and during application.

The paint shall dry on a road surface to a strongly adherent film that will not turn dark in sunlight or show appreciable discoloration with age. It shall be easily and uniformly applicable with mechanical line-marking equipment and shall have excellent covering properties. The paint shall be suitable for binding glass beads so as to produce a highly weather-resistant and wear-resistant traffic line.

Paint shall only be applied when the atmospheric temperature is 45 degrees Fahrenheit or above and when the weather is not excessively windy, dusty, or foggy. Alternatively, as recommended by the manufacturer. Suitability of the weather will be determined by the Ellsworth Highway Foreman.

Longitudinal lines placed on tangent roadway segments shall be straight and true, longitudinal lines placed on curves shall be continuous, smoothly curved lines consistent with the roadway alignment. Symbols shall be square to the roadway.

Broken lines shall consist of alternate 10-foot painted line segments and 30-foot (maximum) gaps.

Width of all lines shall be four inches, +/- ¼ inch.

The contractor shall use cones, stationary vehicles, or other approved methods to protect newly painted lines from traffic.

The Contractor shall be responsible for all traffic control and must provide all traffic control devices.

Schedules for painting City streets must be approved by the Highway Foreman before any work takes place. Painting will generally be allowed during periods of light traffic, evenings, and weekends.

All work shall be performed in a workmanlike manner. The City will not accept substandard work, such as (for reasons of example but not meant to be exclusive); wavy lines and lines with paint smears caused by motor vehicles driving over wet paint.

The Bidder shall be responsible to provide all labor, materials, and equipment necessary to perform the work or supply the material(s) requested in this bid and shall ensure a timely completion of the work involved or the material(s) supplied in conformance with generally accepted work standards. All work shall be in conformance with all applicable local, state, and federal laws, ordinances, rules, and regulations.

Upon notification by the City of unacceptable work, the contractor shall correct it within ten (10) work days. Payment for all uncorrected deficiencies shall be deducted from the amounts owed.

3. APPLICATION

This paint must be reflectorized for night visibility by adding reflective spheres before the paint dries or sets, by using drop-on or pressurized methods. The reflective spheres shall be evenly dispersed on wet paint film of 18 mils (110- 115 square feet per gallon) at a rate of 9 pounds per gallon.

The lines shall be applied with airless or air-assisted spray equipment.

Approximate Quantities to be Painted (see attached list for specific locations)

Parking Lines – 11,600 lf
Stop Bars – 159 each (various lengths)
Right Arrow – 185 each
Left Arrow – 207 each
Straight Arrow – 163 each
Straight/Right Arrow – 48 each
Straight/Left Arrow – 55 each
“ONLY” – 75 each
“STOP” – 2 each
No Parking – 58 each
Handicap – 25 each
Blue (solid area) – 1430 sft
Directional Arrows for Parking Lots – 6 each
Crosswalks- 92 each (2 ft by 6 ft blocks with 1 ft spacing in between)
20 Min Parking – 8 each
EV Charging – 8 each
Red Island (State St) – 330 sft
Green Islands – 6000 sft
End of Islands (yellow) – 8 each
Misc Stencil – 5 each
R X R- 8 each

Under no circumstances should bidders assume that these estimates represent the exact amount of work to be done.

Basis of Payment

It shall be the responsibility of the successful bidder to report in writing the quantities painted each week to the Highway Foreman.

The accepted quantities of pavement lines and markings will be paid for at the contract unit price per linear foot or per unit as defined in the specifications. All lines will be measured by the linear foot. Any changes in the marking schedule must be approved by the Highway Foreman or their designee.

Warranty

Contractor agrees to warranty all workmanship and materials for a period of 6 months from the completion of the work. The paint will need to be applied in such a way that meets 16mills at a minimum. It does not include damage from Plowing operations.

General Conditions

Operations shall be performed so as to not create a nuisance or interrupt operations of adjacent businesses or schools and to minimize the disruption of traffic to the extent possible. Work zones shall be well marked/signed and picked up as work is completed.

The City of Ellsworth shall perform street sweeping of winter sand prior to this work being performed.

If necessary, the bidder shall adjust their schedule to accommodate work being performed by the City or State of Maine.

Contractor shall not assign, transfer, convey, sublet, or otherwise dispose of its contract or its right, title, or interest therein to any other person, firm, or corporation without prior consent of the City. In no case shall any such consent relieve the contractor from its obligations or change any terms of the contract.

If the Contractor fails to fulfill its obligations under this contract on time or otherwise violates any provision of this contract, the City may terminate the contract by written notice to the Contractor.

Equal Employment Opportunity

The City of Ellsworth is an Equal Opportunity Employer and shall not discriminate against an applicant for employment, an employee, or a citizen because of race, color, sex, marital status, physical and/or mental handicap, religion, age, ancestry, or natural origin, unless based on a bona fide occupational qualification. Vendors and contractors or their agents doing business with the City shall not violate the above clause or the Civil Rights Act of 1964. Violations by vendors shall be reviewed on a case-by-case basis and may mean an automatic breach of contract or service to the City of Ellsworth.

Save Harmless

The Bidder agrees to indemnify, defend, and save harmless the City, its officers, agents, and employees from any and all claims and losses accruing or resulting to any and all contractors, subcontractors, material men, laborer, and any other person, firm, or corporation furnishing or supplying work, services, materials, or supplies in connection with the performance of this contract, and from any and all claims and losses accruing or resulting to any person, firm, or corporation who may be injured or damaged by the Bidder in the performance of this contract and against any liability, including costs and expenses, for violation of propriety right, copyrights, or rights of privacy, arising out of publication, translation, reproduction, delivery, performance, use of disposition of any data furnished under this contract or based on any libelous or other unlawful matter contained in such data.

Insurance

Contractors will be required to show proof of insurance in not less than the following amounts:

General Liability:	\$400,000 per incident
Motor Vehicle Liability:	\$1,000,000 Aggregate
Major Medical:	\$50,000
Workers Compensation:	As Required By Maine Statute
