

Sidewalks + safe crosswalks would
actually take cars off the road.

I would like to strongly advocate
for pedestrians on High Street
(and all over the city). It I have
a couple of errands on High Street
I actually have to get in my car
to just cross the street because I'd
be taking my life in my hands to walk
across the street. We need sidewalks on

I love the idea of AI run
street lights if they'll move
traffic quicker and more efficiently.

It would be worth looking
at parts of the plan that
may be beneficial.
It's also important to consider
how the project would affect
traffic that doesn't go by the
side.

What is the effect of traffic cameras to
record people who speed, commit hit and runs, etc
